## TEFO-PLYM - 5 player boards for Terraforming Mars

from **14,83 EUR**

Item no.: 375886  
shipping weight: 0.80 kg  
Manufacturer: Feldherr

### Product Description

Set of 5 supports, supplementary product for the player boards from Terraforming Mars. Can be integrated into TEFO (our insert for Terraforming Mars) - Total size after assembly: 227 x 68 x 7 mm (each) - Assembly requires wood glue. This is a non-licensed product. All product names are registered trademarks of their respective owners. Hobby product. From 14 years. Not a children's toy. In Terraforming Mars, players mark their resources and their production with markers on their player board. It's just annoying if the markers slip out of place due to a clumsy move! Our TEFO-PLYM supports are placed over the original player boards and ensure that the player markers are firmly in place. Small feet on the left and right prevent the overlay itself from slipping. Unused marker cubes can be stored in the centre of the overlay. TEFO-PLYM is a set of five overlays that you can use to fully equip your game. If you also own our TEFO insert, they even fit into the box of the base game (simply remove the corresponding placeholder). This item is supplied as a kit that needs to be assembled. We recommend using wood glue for this (not included in the package).
