from **4,44 EUR**

Item no.: 379665  
shipping weight: 0.20 kg  
Manufacturer: Feldherr

### Product Description

The goblins have caused a lot of chaos in Elfenland. To ensure that your board game box doesn't sink into chaos too, we have included the matching organiser for your board game box in our range. You can use it to tame the contents of your box and carefully organise all the meeple, tokens and cards. The organiser offers space for all meeple, equipment, cards and the entire game material from "Tiny Epic Quest". The set fits into the original board game box from "Tiny Epic Quest". All components of the organiser can be removed individually. A card holder is available for small and large cards. Both card sizes also fit with protective sleeves (max. outer dimensions of small cards: 65 mm x 92 mm, large cards: 131 mm x 92 mm). If you want to store all your cards with protective sleeves, some cards must be stored separately. The token holder allows you to quickly pre-sort the player-specific components. You place the rulebook on the token holder. No assembly required. All parts are ready for immediate use. Transport and tilt-proof - vertical storage possible. While you restore order to the world of elves, we take care of the organisation in your board game box. A token holder and a card holder keep your game components organised. Your game material can be clearly organised and is easily accessible. Tedious pre-sorting is a thing of the past. The clear structure of the organiser also speeds up tidying up after the game. You can invest the time you save in the game and put the goblins in their place. The set consists of: 1 plastic token holder with 7 compartments: You can use 4 compartments to sort the meeple, health tokens, power tokens, legendary items, max health tokens, max power tokens and spell tokens by player. The game cubes can be placed on the game cubes. Store the dice in the long compartment. Store the First Player Token in the narrow compartment on the side. Round and Magic Tokens can be stored in the remaining compartment. 1 plastic card holder with 3 compartments: The card holder has 3 compartments at the bottom for the Item Rack, Goblin Tokens and Treasure Items. The Item Rack must be removed and placed in the compartment. You can store 2 stacks of small cards next to each other above the compartments and place the large cards on top. Both card sizes also fit in the card holder with protective sleeves (max. outer dimensions of small cards: 65 mm x 92 mm, large cards: 131 mm x 92 mm). If you want to store all your cards with protective sleeves, some cards must be stored separately. Once all the game material has been stored in the box, place the rules booklet on the token holder. The organiser has the following overall external dimensions: 166.5 mm x 108 mm x 35 mm. - thermoplastic - no assembly required - ready to play - 3D printed in Germany. As with all 3D printed models, minor imperfections may occur. The product images are only examples of what the finished product may look like. Colours may vary. All products are supplied unpainted.
