Product Description

So that you don't go completely mad organising all the fantastic miniatures and numerous game materials from "Deep Madness", Feldherr has put together a transport bag with a double-size storage box with 14 precisely fitting foam inserts for you. The set offers space for: the basic game, the Kickstarter-exclusive miniatures David and Pris, all Stretch Goals- the Deluxe Expansion Bundle- the Epic Monster Bundle Whether Devourer of Worlds, David and Pris or Mutilation - your miniatures are in good hands in our inserts made of fine-pored foam. Each miniature has its own compartment. This prevents the precious models from sliding around and any paint applied remains intact. Of course, the soft foam also reliably protects fragile parts from breaking off - Atrocity keeps its tongue, Unbound its tentacles. The set also has space for the numerous game materials - dice, (sleeved) cards, tokens, tiles. This means you won't get mixed up when setting up the game and can keep an eye on everything at all times. The set is completed with a matching foam lid and two studded foam inserts. The foam lid is used to level out the height of the stacks of inserts in the storage box, while the studded foam inserts are placed on top of the inserts to prevent anything from falling out. The inserts naturally fit exactly into the sturdy double-size storage box. This is made of double-walled, coated cardboard and is therefore lightweight yet extremely hard-wearing. The attachable lid reliably protects your collection from dust and other external influences. Our transporter bag is made from lightweight but durable fabric. In addition to the large main compartment, the bag has a small side compartment. It can be lifted with two carrying handles or shouldered comfortably with the sturdy carrying strap.
