Whether it's a simple doll, "Ebrietas, Daughter of the Cosmos" or "Vicar Amalia", every figure has the right compartment. Thanks to the precise fit, the miniatures sit securely and do not slip during transport. The soft, fine-pored foam protects intricate details from breaking off and the colours of your painted models from scratches and paint abrasion. We have included inserts with separate card compartments in the set for sorting your playing cards. The finger-wide recesses make it easier for you to remove the stacks of cards. Of course, the cards also fit into the inserts with protective sleeves. Once everything is packed, secure the top of the inserts with the foam lids provided. Surrounded by soft foam, your miniatures are optimally protected at every step of your adventure. We have added 3 smaller storage boxes to the set so that you can neatly store your large-format game material such as player screens, instructions, tiles, tarot cards etc. Your game material is in good hands in the Feldherr storage boxes FSLB040 and FSLB055. The boxes are made of coated, double-walled cardboard. This makes them not only pleasantly light, but also particularly tear-resistant and stable. This means that your play accessories can be stored safely and protected from dust and transported easily thanks to the flat, compact shape. The FSLB150 storage box made of coated, double-wall cardboard is not only lightweight, but also particularly robust. The plastic carrying handle makes it easy to transport your troops. The FSLB310 and DSLB310 storage boxes are made of coated, double-wall cardboard and are therefore very light yet sturdy. The attachable lid reliably protects the contents from dust and other external influences. The two plastic-reinforced carrying handles on the sides make it easy to transport the boxes. The high-quality transporter bag is made from lightweight yet durable fabric. In addition to the large main compartment, it has a small side compartment in which, for example, writing materials, game instructions or similar can be stored. It can be carried with two handles or comfortably shouldered with the sturdy carrying strap. When the bag is not needed, it can be folded flat to save space and easily stored in the cupboard.
