Product Description

It's back to the roots in the second edition of Zombicide. Say goodbye to laser cannons and magic. All that counts here is lead, steel and anything else you can use to kill a zombie. Of course, we also provide you with everything you need to store your collection neatly and safely in the second edition. This Feldherr Transporter set ensures that the zombies lose their limbs on the game board and not in your pocket. - All miniatures, playing cards and the complete accessories from the basic game, the Reboot Box, the expansions Washington Z.C. and Fort Hendrix, and 6 optional buys from the Kickstarter campaign can be stored in the set. - All playing cards also fit with protective sleeves. - The Rule & Mission booklets are stored on the foam covers. The Campaign Sheets and the Campaign Sheet Notepad can be stored separately in the transporter bag. The set offers space for all miniatures and the entire game material from: - Zombicide: 2nd Edition - Basic Game- Washington Z.C.- Fort Hendrix Fort Hendrix- Reboot Box- Daily Zombie Spawn Set- Chronicles Survivor Set- Urban Legends Abomination Set- Danny Trejo Set- 3D Cars- Zombie Soldiers Set. The contents of the "Roleplayer Pledge", "Tiles Set", "Travel Zombicide", "Extra Players Upgrade Set", "Field Guide to Zombicide RPG", "Zombies & Companions Upgrade Kit", as well as the various dice sets do not fit in this transporter set. We have filled four storage boxes with ten full-size foam inserts, seven half-size foam inserts and one grid foam including foam base. This means that all miniatures and the entire game material are perfectly protected and clearly organised. Whether it's Danny Trejo or a lump of fat, each of the 236 miniatures has a suitable compartment. Thanks to the precise cut, the figures do not slide around and remain in place even when being transported by a horde of the undead. Packed in soft foam, the figures are optimally protected from damage. The scrawny limbs of some undead remain just as undamaged as the weapons of your heroes. If you paint your figures, you can also be sure that the colours are protected from scratches and abrasion. Individual inserts with compartments for cards, dice, tiles and tokens help you to keep track of your game material at all times. Thanks to the card holders supplied, even the small-format cards can be clearly organised. A foam grid with a foam base is included for the dashboards and other game material. Thanks to the grid, you can customise and fill the compartments according to your own ideas. This means you always have your game material quickly to hand. The time and nerves you save on setting up the game can be invested in the Zombiehutz instead. The foam lids included complete the set. They ensure that the contents of the storage boxes are protected from all sides and that nothing bumps into the lids of the boxes. You can place the Rules & Mission booklets on the foam lids. The FSLB310 storage box is made of coated, double-wall cardboard and is therefore not only lightweight but also robust, making it ideal for storage and transport. The attachable lid reliably protects your collection from dust and other external influences. The two plastic-reinforced carrying handles on the sides make it easy to transport the box. The FSLB040 storage box is also made of coated, double-wall cardboard. This makes it not only pleasantly light, but also particularly tear-resistant and stable. With the matching foam inserts, miniatures, game material and other small parts can be stored safely and protected from dust and transported easily thanks to the flat, compact shape. The boxes fit into our transporter bag made of lightweight but durable fabric. In addition to the large main compartment, the bag has a small side compartment. The Campaign Sheets and the Campaign Sheet Notepad can be easily stored in the small side compartment. The bag can be lifted with two carrying handles or shouldered comfortably with the sturdy carrying strap. This means your "Zombicide: 2nd Edition" collection is fully packed and you are perfectly equipped for the zombie calypso.
