TRA54 - Transporter for Necromunda: Dark Uprising

from 128,66 EUR

Item no.: 379938
shipping weight: 1.50 kg
Manufacturer: Feldherr

Product Description

Like so many imperial worlds, Necromunda is on the verge of collapse. Various gangs and cults are destabilising the system and the Empire's Enforcers are taking cruel action against any attempt to overthrow them. Loyal to the Empire or revolutionary? No matter which side you choose, this Feldherr transporter set will help you store and transport all the contents of the Necromunda: Dark Uprising box. The set offers space for all miniatures, terrain pieces, game cards and the complete accessories from the "Necromunda: Dark Uprising" game set. You can store the templates, the measuring stick and the game board separately on the foam lids in the storage boxes. Stow the rulebook in the side compartment of the transport bag. All miniatures and terrain parts are reliably protected from damage and neatly stored in a total of seven foam inserts and one grid foam insert. A further foam insert and three enclosed plastic token holders ensure that the game material is well organised. From the Imperial Palatine Enforcer to the bloodthirsty Corpse Grinder - all miniatures and each terrain piece have their own custom-fit compartment. Surrounded by soft, fine-pored foam, this provides reliable protection for your figures during transport. You don't need to worry about scratches and chipped paint on your painted models or broken parts. A pre-perforated grid foam insert is included for particularly bulky Zone Mortalis terrain parts. To adapt it to your models, remove the appropriate foam segments and then glue the insert to the base supplied. Done! A separate mat is provided for the large number of tubes. To prevent the pipes from bumping into each other during transport, we have included an insert with spacers in the set. Take these out of the insert and place them between the pipes as a separator. This prevents them from bumping into each other. An individual inlay is provided to keep your playing cards, dice and tokens organised. Plastic token holders are provided for the tokens, which fit into the hexagonal compartments of the insert. The cards are stored in the large compartment with the round cut-outs. Distribute the dice between the remaining two compartments. Finally, foam lids ensure that your pieces are securely packed all around. Store the templates, the measuring stick and the game board separately on the foam lids. The rulebook can be stored in the side compartment of the transport bag. The FSLB250 storage box is made of coated, double-walled cardboard and is therefore both very light and particularly sturdy. With the matching foam inserts, miniatures, game material and all other goods can be stored safely and protected from dust - and transported easily with the plastic carrying handle. One side of the box can be opened completely. This makes it easier to put away and remove the foam mats. The inserts are either inserted from the top or simply pushed into the side of the box. Our transporter bag is made from lightweight but durable fabric. In addition to the large main compartment, the bag has a small side compartment. Here you can store your rule book, for example. It can be lifted with two carrying handles or shouldered comfortably with the sturdy carrying strap. The set consists of: - 1 Feldherr transporter bag - 2 Feldherr storage box FSLB250 - 2 full-size foam inserts for pillars and walls (FSMEVS070BO) - 1 half-size foam insert for Corpse Grinder Cult miniatures (HS050BF05BO) - 1 Half-size foam insert for Palatine Enforcers and Palatine Subjugators (HS050I012BO) - 1 Raster foam insert for bulky terrain (HS090RS) - 1 foam base, 10 mm, for the grid foam inlay - 1 foam lid - 1 Feldherr storage box FSLB250 - 1 full-size foam inlay for platforms and stairs (FSMEXS100BO) - 1 full-size foam inlay for small terrain (FSMEXT075BO) - 1 half-size foam inlay with 5 compartments for cards, dice and token holders (HSMEXQ060BO) - 3 plastic token holders for tokens (60256) - 1 half-size foam insert for piping (HSMELI050BO) - 1 half-size foam insert with 40 spacers as dividers (HSMELV040) - 1 foam mat, 10 mm, as height levelling - 1 studded foam lid Dimensions of the transporter bag: - Internal dimensions: approx. 620 mm x 400 mm x 340 mm height - External dimensions: approx. 635 mm x 410 mm x 350 mm height - Front compartment: 230 mm width x 210 mm height Dimensions of storage box FSLB250: - Internal dimensions: 345 mm x 275 mm x 275 mm height - External dimensions: 355 mm x 290 mm x 260 mm height The inserts have the following dimensions: - HS050BF05BO / HS050I012BO / HSMELI050BO: 275 mm x 172 mm x 50 mm total height (40 mm usable height + 10 mm foam base) - HSMEXQ060BO: 275 mm x 172 mm x 60 mm total height (50 mm usable height + 10 mm foam base) - FSMEVS070BO: 345 mm x 275 mm x 70 mm total height (60 mm usable height + 10 mm foam base) - FSMEXS100BO: 345 mm x 275 mm x 100 mm total height (90 mm usable height + 10 mm foam base) - FSMEXT075BO: 345 mm x 275 mm x 75 mm total height (65 mm usable height + 10 mm foam base) The grid foam insert has the dimensions: - HS090RS: 275 mm x 172 mm x 90 mm total height - high-quality, fine-pored foam - Made in Germany - chlorine-free and acid-free As with all 3D-printed models, minor imperfections may occur. The product images are only examples of what the finished product may look like. Colours may vary. All products are supplied unpainted. - thermoplastic - 3D printed in Germany
