### Product Description

Whether it's an ageing Wolverine or oversized Sentinels, each figure has its own compartment. Thanks to the precise cut, the figures remain in place during transport through the most famous comic locations. The soft foam protects against damage just as reliably as a steel embrace from Colossus. If you paint your figures, you can also make sure that the colours are protected from scratches and abrasion. You can sort your small game material such as tokens, trackers and the coloured base rings into the free compartments of the foam inserts. We have packed three Feldherr card boxes in the storage boxes for your playing cards and the small tableaus. Here you can store your cards neatly and organise them according to your preferences. Each card box offers space for up to 1600 cards without protective sleeves and approx. 900 cards with protective sleeves (tested with premium card sleeves from GameGenic and Ultra Pro). Of course, all cards with protective sleeves fit into the card boxes. Finally, secure the top inserts with the foam lids supplied. This prevents a figure from falling off or hitting the lid of the storage box during transport. Store the rulebook, instructions, the hexagonal rogue tableaus and the locations on the foam lids of the various storage boxes. As soon as all components are sorted, you save time and nerves when setting up the game and tidying up after the game is also quicker. The set consists of: - 1 Feldherr transporter bag - 2 Feldherr storage boxes FSLB250 - 3 Feldherr card boxes for playing cards, rogue boards and Teams vs. Team boards (TCHS105) - 2 full-size foam inserts with 32 compartments each for miniatures (FSMEDS045BO) - 1 half-size foam insert with 2 compartments for sentinels (HSMECN100BO) - 2 full-size foam inserts with 26 compartments each for miniatures and small game components (FSJQ050BO) - 1 half-size foam insert with 2 compartments for sentinels (HSMECN100BO) - 1 full-size foam insert with 26 compartments each for miniatures and small game components (FSJQ050BO) 1 half-size foam insert with 12 compartments for miniatures (HS0701012BO) - 1 half-size foam insert with 5 compartments for a sentinel and smaller miniatures (HSMFGD080BO) - 3 foam lids The high-quality transporter bag is made of lightweight but durable fabric, but durable fabric. In addition to the large main compartment, it has a small side compartment in which, for example, writing materials, game instructions or similar items can be stored. It can be carried with two handles or comfortably shouldered with the sturdy carrying strap. When the bag is not needed, it can be folded flat to save space and easily stored in the cupboard. Transporter features: - bag made of lightweight and particularly resistant material - additional small compartment (e.g. for writing materials) with zip on the front of the bag 2 carrying handles and an infinitely adjustable carrying strap with shoulder pad for comfortable transport The FSLB250 storage box is made of coated, double-wall cardboard and is therefore both very light and particularly sturdy. With the matching foam inserts, miniatures, game material and all other goods can be stored safely and protected from dust - and transported easily with the plastic carrying handle. One side of the box can be opened completely. This makes it easier to put away and remove the foam mats. The inserts are either inserted from the top or simply pushed into the side of the box. The Feldherr storage box TCHS105 is the ideal solution for storing and transporting your playing cards. It consists of two parts. The lower part is made of white, coated cardboard. A partition in the centre of the box divides it into two equally sized compartments. This allows the cards to be lined up neatly without them getting mixed up during transport. The slip lid is also made of sturdy, coated cardboard. This protects the cards from dust and other external influences.
