From 14 years. Not a children's toy.The world has not been the same since the moon crashed to earth and revealed its innermost secrets: In the rock of the satellite lies the white dragon TSUKUYUMI, once a mighty god-being, but banished to the eternal night sky by his brothers and sisters thousands of years ago. His return has plunged the world into chaos - continents have been shattered, animals and plants wiped from the surface and humanity all but wiped out.Our mission is to confront the chaos and bring order to the game table. Each faction gets its own storage boxes and yet we have managed to fit the game with all the expansions into the base box.TSUK consists of 26 boxes that can be removed individually and placed anywhere on the game table.Box 1: Holds the event cards.Trays 2-3: All general markers go in here.Trays 4-24: Each faction has its own space for setups, cards and markers.Tray 25: Action cards.Tray 26: Blockades/passages.When all the trays are in the box, the large moon board, faction sheets and rulebook/codex go on top. The box lid is about 5 mm high.This item is supplied as a kit that must be assembled. We recommend the use of wood glue (not included in the package).
