### Product Description

Feldherr has created this set to keep your exclusive Zombicide collection complete and in top condition. 11 high-quality foam inserts, 2 sturdy storage boxes and 1 practical transporter bag ensure that you can organise all your miniatures, cards, dice, tokens and game board components properly, store them safely and transport them conveniently to your next game night. The set offers space for the (regular) game materials from the following boxes: - Zombicide base game- Prison Outbreak- Rue Morgue- Toxic City Mall- Angry Neighbors. You can also store up to 50 miniatures from expansions (e.g. Zombiedogs/Dog Companions). All miniatures, (sleeved) cards, tokens, markers and dice are stored in the 11 foam inserts. There is a separate compartment for each miniature. This prevents the miniatures from sliding around and keeps your collection perfectly organised during transport. The fine-pored foam reliably protects your game materials from damage. Fragile miniature details remain intact and sensitive surfaces are spared scratches and abrasion. The foam inserts fit exactly into the two LBBG250 storage boxes, divided into two stacks. The storage boxes are made of coated, double-walled cardboard. This makes them not only pleasantly light, but also particularly tear-resistant and stable. The practical plastic carrying handles make them easy to transport. The transporter bag is made of lightweight but durable fabric. In addition to the large main compartment, the bag has a small side compartment. It can be lifted with two carrying handles or shouldered comfortably with the sturdy carrying strap.
