This means that all miniatures and the entire game material are perfectly protected and clearly organised. There is a separate, precisely cut compartment for each miniature. Thanks to the precise cut, your figures always stay firmly in place and do not slip during transport. Surrounded by soft foam, they are reliably protected from damage. It also prevents your elaborately painted miniatures from scratching or unwanted colour abrasion. Individual inserts and compartments help you to keep cards and all your game material compactly organised and safe at all times. All cards fit into the insert even with a protective cover. The included foam lids complete the set. They ensure that the contents are protected from all sides. The game board is stored next to the storage boxes in the transporter. The large-format Pharaoh Cards, Player Aid Cards, Pantheon booklet, God Dashboards, Merged God Dashboards, rulebooks, Devotion Dashboard, Scenario Book and the Kickstarter-exclusive Palace Dashboard are stored separately on the foam lids. The Feldherr-MAXI bag is made of particularly hard-wearing material. Padded side panels and a reinforced base ensure that the miniatures are also optimally protected during transport by car or train. The FSLB310 storage box is made of coated, double-walled cardboard and is therefore very light yet stable. The attachable lid reliably protects the contents from dust and other external influences. The boxes fit into our transporter bag made of lightweight but durable fabric. In addition to the large main compartment, the bag also has a small side compartment. The Campaign Sheets and the Campaign Sheet Notepad are best stored in the small side compartment.
