Once again, darkness threatens to plunge the world into a new darkness. Can you stop it? So that you are prepared for the upcoming game nights, you have secured the Gameplay All-In Pledge in the Kickstarter campaign for "Massive Darkness 2: Hellscape". More than 200 miniatures and mountains of game material are now yours. We provide you with everything you need to store your collection neatly, safely and as compactly as possible. This Feldherr transporter set ensures that your adventure is only unleashed on the playing field and does not come to a premature end on the way there. - The base game, the Heavenfall expansion, the five expansion boxes, as well as all unlocked stretch goals and Kickstarter rewards can be stored in the transporter set. - Practical plastic inserts help you to sort the game material. - All game cards also fit with protective sleeves. All playing cards also fit with protective sleeves. - You can store rulebooks, Spell Amulet, cardboard dashboards, Treasure Bag and game components of a similar size on the foam lids of the various storage boxes. The contents of the following boxes can be stored with this set: - "Massive Darkness 2: Hellscape" - Basic game- "Massive Darkness 2: Heavenfall" - Campaign Mode Expansion- "Massive Darkness 2: Enemy Box: Gates of Hell"- "Massive Darkness 2: Enemy Box: War of Souls"- "Massive Darkness 2: Four Horsemen" - Expansion- "Massive Darkness 2: Druids vs. Beelzebub" - Expansion The game material and the small miniatures from the "Demon Dragon" expansion fit into the set. The large dragon figure exceeds the dimensions of our foam inserts and must therefore be transported separately. Since the "Upgrade Pack" is intended for Massive Darkness 1, it was not included in this package. The bundle also offers space for all unlocked stretch goals and Kickstarter rewards such as: - Rainbow Crossing- Monks & Necromancers vs. The Paragon- Bards & Tinkerers vs Metal Angel- Enemy Box: Feyfolk- Darkbringer Pack To do justice to the epic proportions of the Gameplay-All-In Pledge of "Massive Darkness 2: Hellscape", we have put together 2 transporter bags, 4 storage boxes, 11 full-size, 20 half-size foam inserts, 10 plastic inserts, 1 foam mat and 4 foam lids into a matching pack. This means that your 200+ miniatures and all your game material are perfectly protected and clearly organised. There is a separate, customised compartment for each monster, hero and boss. Thanks to the customised cut, the figures stay in place even when being transported through the darkness. They won't slide around and, surrounded by soft foam, are optimally protected from damage. If you paint your figures, you can also be sure that the colours are protected from scratches and abrasion. Individual inserts with compartments for cards, dice and tokens help you to keep track of your game material at all times. The inserts are complemented by plastic trays, such as the card holders for small cards, which you fit into the corresponding compartments of the foam trays. The foam inserts with four compartments are designed for the majority of your large-format game components. Sort game tiles and dashboards into the large compartment. Distribute the smaller game components such as tokens and dice to the free compartments and other inserts. Once all the components have been sorted, you will save time and nerves when setting up the game and can bring light into the darkness more quickly. The foam lids included complete the set. They ensure that the contents of the storage boxes are protected from all sides and that nothing bumps into the lids of the boxes. You can store rulebooks, Spell Amulet, cardboard dashboards, Treasure Bag and game components of a similar size on the foam lids of the various storage boxes. The DSLB310 and FSLB310 storage boxes are made of coated, double-walled cardboard and are therefore not only lightweight but also robust, making them ideal for storage and transport. The attachable lids reliably protect your collection from dust and other external influences. The two plastic-reinforced carrying handles on the sides make it easy to transport the boxes. The FSLB150 storage box is made of coated, double-wall cardboard. It is not only lightweight, but also particularly robust. The plastic carrying handle makes it easy to transport the storage box. The boxes fit into our transporter bag made of lightweight but durable fabric. In addition to the large main compartment, the bag also has a small side compartment. The Campaign Sheets and the Campaign Sheet Notepad are best stored in the small side compartment. The bag can be lifted with two carrying handles or shouldered comfortably with the sturdy carrying strap. This means your "Massive Darkness 2: Hellscape" collection is fully packed and you can bring the next generation of Lightbringers to light.
