In Horizon Zero Dawn, the world has come to an end and humanity has been catapulted back into a tribal society. Only instead of giant mammoths, gigantic robot beasts roam the earth that need to be hunted down. In addition to the base game and the Kickstarter Exclusives, you were able to secure ten expansions that you would like to store safely and space-savingly. Of course, we provide you with everything you need to store your collection neatly and safely. The transporter set ensures that the robot beasts are broken down into their individual parts on the playing field and not in your bag. - All miniatures, playing cards and the complete accessories of the basic game, "The Kickstarter Exclusives" box and the ten expansion packs can be stored in the transporter set. - A large grid foam insert has been included for particularly large models. - All playing cards also fit with protective sleeves. - The majority of the Encounter Tiles are stored in the robust FSLB055 storage boxes. Approx. 10 Encounter Tiles are transported separately with the rulebooks in the FSLB310 storage box. The set offers space for all miniatures and the entire game material from: - Horizon Zero Dawn: The Board Game - Basic Game- Horizon Zero Dawn: The Board Game - The Lawless Badlands Expansion- Horizon Zero Dawn: The Board Game - The Forge & Hammer Expansion- Horizon Zero Dawn: The Board Game - The Sacred Land Expansion- Horizon Zero Dawn: The Board Game - The Fireclaw Expansion- Horizon Zero Dawn: The Board Game - The Heart of the Nora Expansion- Horizon Zero Dawn: The Board Game - Soldier of the Sun Expansion- Horizon Zero Dawn: The Board Game - The Rockbreaker Expansion- Horizon Zero Dawn: The Board Game - The Thunderjaw Expansion- Horizon Zero Dawn: The Board Game - The Stormbird Expansion- Horizon Zero Dawn: The Board Game - The Frozen Wilds Expansion- Horizon Zero Dawn: The Board Game - The Kickstarter Exclusive

Hunter, Bandits, Cultists and character models (HS035C5BO)- 1 foam mat, 10 mm, as height compensation- 1 foam lid- 2 storage boxes FSLB055In order to do justice to the epic dimensions of the overall package of "Horizon Zero Dawn: The Board Game", we have packed 2 transporter bags, 5 storage boxes, 3 full-size, 16 half-size foam inserts and a double-size grid foam incl. foam base into one set. foam base in one set. This means that all miniatures and game material are perfectly protected and clearly organised. There is a separate, customised compartment for every Hunter, character model and, of course, every mechanical beast. Whether it's Alloy or the Thunderjaw, your figures stay in place during transport. They won't slide around and, surrounded by soft foam, are optimally protected from damage. The mechanical limbs of some monsters remain just as undamaged as the weapons of your heroes. If you paint your figures, you can also be sure that the colours will be spared scratches and abrasion. For the giant Stormbird, the accompanying flying base, the Deathbringer, Fireclaw and Behavior Cards, we have equipped the set with a grid foam insert and the matching base. This allows you to fit the miniatures according to your ideas. To do this, simply remove the grid pins in the desired shape. Thanks to a self-adhesive side, the grid foam can be easily glued to the base. As the flying base protrudes slightly, the set includes a grid foam cover. Simply remove the pins from the grid foam at the height of the flight base and place the cover on the inlay. This provides optimum protection for the base. Individual inlays with compartments for cards, dice and tokens help you to keep track of your game material at all times. Special card compartments with finger-thick cut-outs are provided for the cards. These make it easier for you to remove the individual stacks. This means you always have your game material quickly to hand. The time and nerves you save on setting up the game can be invested in the monster hunt instead. We have packed the two storage boxes FSLB055 for the majority of the Encounter Tiles. Here you can store the tiles well protected from scratches. Place the excess Encounter Tiles together with all the rulebooks on the foam lid in the storage box FSLB310. The foam lids included complete the set. They ensure that the contents of the storage boxes are protected from all sides and that nothing bumps into the lids of the boxes. The DSLB310 and FSLB310 storage boxes are made of coated, double-wall cardboard and are therefore not only lightweight but also robust, making them ideal for storage and transport. The attachable lids reliably protect your collection from dust and other external influences. The two plastic-reinforced carrying handles on the sides make it easy to transport the boxes. The FSLB150 storage box is made of coated, double-wall cardboard and is not only lightweight, but also particularly robust. The plastic carrying handle makes it easy to transport the storage box. The Encounter Tiles are perfectly stored in the Feldherr storage boxes FSLB055. The boxes are made of coated, double-walled cardboard. This makes them not only pleasantly light, but also particularly tear-resistant and stable. This means that the tiles can be stored safely and protected from dust and transported easily thanks to their flat, compact shape. The boxes fit into our transporter bag made of lightweight but durable fabric. In addition to the large main compartment, the bag has a small side compartment. The Campaign Sheets and the Campaign Sheet Notepad are best stored in the small side compartment. The bag can be lifted with two carrying handles or shouldered comfortably with the sturdy carrying strap. This means your "Horizon Zero Dawn: The Board Game" collection is fully packed and you are perfectly equipped for the post-apocalypse.
