from **37,10 EUR**

Item no.: 379308  
shipping weight: 0.50 kg  
Manufacturer: Feldherr

### Product Description

Dante is not a Xoloitzcuintle rogue of the same name, but a sword-wielding private investigator with a very special speciality: demons. After the son Sparda has freed the screens of this world from demons, this time it's time to fight on the gaming table. The game impresses with detailed figures and lots of elaborately designed game material. The matching organiser set is available so that your figures are well protected and you don't lose track of them. Suitable for the base game box, your miniatures remain well protected and your game material clearly organised. The set fits exactly into the original board game box of the "Devil May Cry: The Bloody Palace" base game. Provides space for all miniatures and the complete game accessories of the base game. All cards also fit into the card holders with protective sleeves. The plastic trays are placed on the foam lid. The hunter boards are stored in the free space between the card holders. The lettering "Basic Attack Area" is orientated towards the three card holders on the side of the box. The gameboard and instructions are stored on the plastic inserts. The lid of the board game box protrudes approx. 3 cm. Transport and tip-proof - Vertical storage possible - "Ready to use" - no assembly required. While you explore the Bloody Palace and hunt demons, we take care of the contents and organisation of your box. The foam inserts provide reliable protection for your miniatures. The token and card holders allow you to organise your game material quickly and clearly. This saves you time when setting up the game and allows you to put the time you save into the game. The set contains: - 2 foam inserts with 14 compartments for miniatures such as Riot, Proto Angelo, Elder Geryon Knight, Empusa Queen - 5 plastic card holders for normal-sized cards such as Achievement Cards, Hunter Cards, Behaviour Cards, Starting Deck Cards, Upgrade Deck Cards - 1 plastic card holder for large cards such as Bloody Palace Cards, Enemy Cards - 1 plastic token holder with 9 compartments for small game material such as One damage tokens, Three damage tokens, Guard tokens, Five damage tokens, Style markers, Ten damage tokens, Red/Green orb tokens, Stun tokens, Five Red orb tokens - 1 foam mat, 4 mm, as height leveller - 1 foam cover Each miniature, whether Dante, Nero or the numerous Empusa, is distributed over three customised foam inserts and given a precisely fitting compartment. Riot, Proto Angelo, the Elder Geryon Knight and the Empusa Queen are given miniature-accurately cut compartments. The customised cut prevents the figures from sliding around. They remain in place even when being transported through the circles of hell. The soft foam prevents the finest details from bending or breaking off. This means that Trish retains her slender legs and V.'s raven its wings. If you have painted your miniatures, you don't need to worry about scratches or chipping paint. There is also a compartment in which you can store the Start Player Token. You can cover the inlays with the foam lid. This means your figures are well protected from all sides and no miniature can slip out of the compartments during transport. Suitable card holders are included for your cards. This keeps your cards free from ugly creases. Of course, all cards also fit into the card holders with protective sleeves. A token holder is included for the large number of tokens. Distribute the tokens among the 9 compartments as you wish. Finally, store the game board and instructions on the plastic inserts. - high-quality, fine-pored foam - chlorine-free and acid-free - Made in Germany As with all 3D-printed models, minor imperfections may occur. The product images are only examples of what the finished product may look like. Colours may vary. All products are supplied unpainted. - thermoplastic - no assembly required - ready to play - 3D printed in Germany
