Product Description

Many dangers lurk at court. As an upstart, you have to be particularly careful. One wrong decision and you are not the next high nobleman, but a head shorter. Tudor requires a great deal of tactical flair and you don't need messy conditions in your board game box. To prevent you from getting caught up in your own intrigues and stumbling over your game material, we have provided you with the matching Feldherr Organiser. It ensures that all your game material is neatly organised. So you always have the game contents in view and soon have the highest offices under your control. The organiser fits exactly into the original Tudor base game box. The trays offer space for the entire game material of the base game. We have packed two different card holders into the set for your playing cards. All cards also fit into their card holders with protective sleeves (max. outer dimensions: Standard cards 62 x 94 mm and small-format cards 46 x 71 mm). The trays not only keep the box tidy, but also the game table. The original cardboard ring holder can be replaced by the plastic trays in the game. You place the instructions, sticker sheet, cloth bag, ring holder, game board and hands on the foam lid. Transport and tip-proof - vertical storage possible - Ready to use - no assembly required. You pursue your ambitions on the court, we pursue ours in your board game box. Two plastic card holders and 18 token holders keep your game material neatly organised. Every card and every token has a suitable place. You can sort the wooden figures, statecraft tokens and rings by colour. Thanks to this clear structure, you save yourself time-consuming pre-sorting every time. You can use the time saved to clear annoying opponents out of the way. To start the game quickly, take the individually removable inserts out of the board game box and spread them out on the table. You can replace the cardboard ring holder with the plastic trays containing the rings. All the game materials are where you need them and you benefit from an improved overview. After the game, fill the inserts and put them back in the board game box. All the evidence of your misdeeds is quickly hidden and you can move on to new goals. How about a crown? A matching foam lid completes the set and ensures that your game material does not bump into the lid of the box or take flight during transport. The set consists of: - 1 plastic card holder with a compartment for standard cards such as situation cards, scoring cards, overview cards and small game material such as starting player markers (disassembled), round markers, cardboard card holder feet. - 1 plastic card holder with two compartments for standard cards such as situation cards, scoring cards, overview cards and small game material such as starting player markers (disassembled), round markers, cardboard card holder feet. - 1 plastic card holder with two compartments for small-format cards such as state art cards. - 1 plastic token holder with four compartments for wooden tokens such as lord tokens, family members/courtesans and scoring tokens, sorted by colour. - 2 plastic token holders, each with a compartment for influence markers and intrigue markers. - 1 plastic token holder with a compartment for opportunity markers. - 7 plastic token holders with a compartment for state favour tokens, assorted colours. - 7 plastic token holders with a compartment for privilege rings, assorted colours. - 1 foam lid - fine-pored foam - Made in Germany - chlorine-free and acid-free.
