The set offers space for all miniatures and the entire game material from: Etherfields - basic game- 5th Player Expansion- Thorn Knight Optional Buy- all unlocked stretch goals from Wave 1- Creatures of Etherfields. So that you can delve deeper into the rabbit warren, we take care of the contents and organisation of your boxes. You can store your miniatures in the foam inserts. The token and card holders allow you to organise your game material quickly and clearly. This saves you time when setting up the game and allows you to put the time you save into playing. The main components of the set at a glance: 2 foam inserts for miniatures, dream boards, lucid dream boards and mask tokens: Each of your 45 miniatures is distributed across two customised foam inserts in a precisely fitting compartment. Belshazar and all the miniatures from "Creatures of Etherfields", such as the more than disturbing Scar Crow, are given a precisely cut compartment. The precise cut prevents the figures from sliding around and they remain in place even when being transported through the most disturbing dream worlds. The soft foam prevents the finest details from bending or breaking off. Even Two-Tailed Fox retains its two tails and does not need to be renamed. If you have painted your miniatures, you don't need to worry about scratches or chipping paint. The insert for the basic game also has a large compartment for Dream Boards, Lucid Dream Boards and mask tokens. 6 Token holder with five compartments made of robust plastic for your game material: Tokens (power tokens, sign tokens), markers (glass and plastic markers) and other game material (dice, plastic stands, etc.) can be sorted as you wish. You can place the blank token in the square recess in the centre. The token holders are stackable and can be removed individually. They can be placed on the table for the game. This means you have everything clearly organised and always to hand. 8 plastic card holders, each with a compartment for standard cards (Core Suffering cards, Belshazar Secret Wisdom cards): Each card holder can hold 280 cards (or 140 cards with a protective cover). If you use card dividers to sort your cards, the maximum number of cards is reduced. Cards fit into sleeves with a maximum size of 92 mm high x 66 mm. 2 plastic card holders, each with a compartment for Big Cards (Core Secret cards - Locations, Belshazar Other Effect cards): Each card holder can hold 320 cards (or 160 cards with protective sleeves). You can also sort the cards here using card dividers. The maximum number of cards is reduced accordingly. Cards fit into sleeves with a maximum size of 113 mm high x 113 mm. A thick foam mat improves stability in the base game box and prevents the card holders from sliding around. Three thin foam mats compensate for height differences within the box. Place the supplied foam lids on the inserts. This ensures that none of your pieces bump into the lids of the board game boxes during transport. Place the "Wisdom card holder", "Dreamworld Map tiles holder", board, "Secret Scripts book", game manual and "Dream Gate tiles envelopes" on the foam lid of the basic game box. As the lid of the basic game box protrudes significantly, a Feldherr Flex Cross Band blue (size XL) has also been included with the set. This ensures a stable, transportable fit of the lid despite the overhang. High-quality, fine-pored foam - Chlorine-free and acid-free - Made in Germany.
