from **18,88 EUR**

Item no.: 379641
shipping weight: 0.40 kg
Manufacturer: Feldherr

Product Description

Ready for the final chapter? Awaken Realms is giving it all again. The last two campaigns "Age of Legends" and "Last Knight", including all unlocked stretch goals and the Donkey Pack, were delivered in a beautifully designed board game box. We won't leave you alone on your last steps and will support you with the matching organiser set. Here you can keep your miniatures and over 600 cards well protected and clearly organised. - The organiser set offers space for all unlocked stretch goals from the Kickstarter campaign of "Tainted Grail: The Fall of Avalon". - Fits into the original board game box in which "Age of Legends", "Last Knight" and all unlocked stretch goals were delivered. - 1 foam insert offers space for all 8 miniatures and the donkey from the Donkey Pack and the small-format cards. - Four plastic card holders help you to sort the playing cards. All cards also fit with sleeves. - The character boards and the paper materials (introduction letters, memory sheets, book of discoveries) are stored separately in the board game box. In the Stretch Goal Box you will find a total of 9 fantastically designed miniatures. To prevent them from being damaged during transport, we have included a foam insert with the set. Each miniature, whether stubborn donkey or enchanting Mabdl, is given a precisely fitting compartment. This ensures that the figures do not slip and bump into each other during transport through the wastelands of Avalon. This protects sensitive details such as weapons and faces from damage. You can be sure that the colours of your painted models are optimally protected by the soft foam. Neither scratches nor chipping paint stand a chance. There are plastic card holders for your cards as well as a compartment in the foam insert. Place your small-format cards in the foam insert. Sort the remaining cards into the corresponding compartments of the card holders. There is a recess in the box for the character boards, next to the card holders for the large and normal-sized cards. Introductory letters, memory sheets and the books of discoveries are stored separately on the inserts. Finally, the foam lid supplied ensures that all contents are also protected from above. This means that nothing can hit the lid of the board game box or fall out of the compartments. The set consists of: - 1 foam insert for miniatures and small cards (GEMFDT060BO) - 2 card holders for standard-sized cards (61652) - 2 card holders for standard-sized cards and large cards (61653) - 1 foam mat, 10 mm, as height compensation - 1 foam cover - high-quality, fine-pored foam - chlorine-free and acid-free - Made in Germany As with all 3D-printed models, minor imperfections may occur. The product images are only examples of what the finished product may look like. Colours may vary. All products are supplied unpainted. - thermoplastic- 3D printed in Germany
