from **22,59 EUR**

Item no.: 379643  
shipping weight: 0.30 kg  
Manufacturer: Feldherr

### Product Description

Off to Mars. Earth has become too small for humanity. The greedy eyes of large corporations are turning to our red neighbour. Will you manage to turn Mars into a second Earth through skilful resource management and bring your corporation to the top? To make sure everything runs smoothly and you don't fail because of the mess in your board game box, we have the Feldherr Organiser for you. It ensures that your game box stays tidy and all game components are neatly organised. The organiser fits exactly into the original board game box of "Terraforming Mars: Ares Expedition". It offers space for all the game cards, markers and tokens of the game. Two individually removable plastic card holders are available for your game cards. All cards fit into the card holders even with protective sleeves (max. outer dimensions: 71 mm x 97 mm). You can organise the small game material clearly in the five individually removable token holders. Two players share a tray to store their resource markers. The game board, player boards, overview and rulebook are stored on the plastic trays. The lid of the box protrudes approx. 1 cm. No assembly required. All parts are ready for immediate use. Transport and tilt-proof - vertical storage possible. While you make Mars habitable, we'll spruce up your board game box. The two card holders and five token holders ensure that your game material is always clearly organised in the box. This saves you time when setting up the game and means you always have the essential game components to hand. To start the game quickly, simply place the individually removable trays on the table and you can get started straight away. Tidying up is also much easier thanks to the clear structure of the organiser and you save a lot of time. Time that you can spend playing games. The set consists of: 2 plastic card holders, each with 3 compartments for playing cards such as project cards, group cards and phase cards + card dividers included. 3 plastic token holders, each with 3 compartments for small game material such as resource markers, forest SP tokens, ocean tokens, oxygen and temperature markers + game aid cards in the recesses. 1 plastic token holder with 1 compartment for phase markers. 1 plastic token holder with 4 compartments for player markers. As with all 3D-printed models, minor imperfections may occur. The product images are only examples of what the finished product may look like. All products are provided unpainted. thermoplastic- made from renewable raw materials- no assembly required - ready to play- 3D printed in Germany
