from 127,50 EUR

Item no.: 369319
shipping weight: 0.50 kg
Manufacturer: ITALERI

Product Description

The floor model is a replica of the Alfa Romeo 8C 2300 Monza Nuvolari. The Alfa Romeo 8C is considered one of the most famous sports cars of the 1930s. The Alfa Romeo can be considered "state of the art" for technology, innovative solutions and performance. The "8C" is characterised by impressive reliability and driving ability and achieved significant victories in international car races. It owes its name to the famous Italian driver Tazio Nuvolari, who won, among others, the Targa Florio race in Sicily and the prestigious Italian Grand Prix in Monza. From the racing version, a production batch of almost 200 cars was made for the private market to be used on normal roads.

Caution. Not suitable for children under 36 months.
