Product Description

DESCRIPTION Monopoly Knockout is entertaining and active fun for families. The aim is to slide pieces across the game board to collect money. It's time to get off the couch and compete against other players in a showdown of the game pieces. The game is played in rounds and players take it in turns to push their pieces to slide them across the game board, which is more than 90 cm long. Who will manage to land on a plot of land? At the end of each round, you collect (or pay) money - depending on where your pieces have landed. Only those who aim accurately and push their pieces skilfully can land them on the best plots of land and push other players into prison - or even knock them off the board altogether! Whoever has the most money at the end of the game wins! Are you looking for a family party game for children and adults or a game for a family evening? This slightly strategic game would be a good choice. The titles HASBRO GAMING and MONOPOLY as well as the corresponding logos, the design of the game board, the four corner squares, the name and figure of MR. MONOPOLY as well as all elements of the game board and the game pieces are registered trademarks of Hasbro for the MONOPOLY social game including game equipment.-ACTIVE FAMILY PARTY GAME: Monopoly Knockout is all about sliding the game pieces across the game board, knocking out opponents and collecting money!
