Product Description

Help endangered species to survive! Human progress is threatening the survival of many animal species. Time is running out. Can the animals be saved and the voices of the ambassadors influenced at the same time? Or will the endangered animals be lost forever? Endangered is a co-operative connoisseur game in which you stand up for animal protection and work together to save a particular species from extinction. Respond to acute threats and convince countries to vote in favour of animal welfare to ensure the long-term survival of your species. In this balancing act, you face the same challenges as the animal rights activists and environmentalists who fight for our fragile ecosystem every day. Endangered consists of several scenarios. Each of them tells a different story, presents you with unique challenges and illustrates the problems of the respective animal species and the people who want to protect them with an exciting dice placement mechanic. This box contains the tiger and sea otter scenarios.
