Product Description

ASS Altenburger is the oldest known company in the development and production of playing cards in Europe. True to the motto: A heart for card games - since 1765. We are constantly developing and optimising our products and production processes. Acting in an environmentally friendly manner is an important aspect of this. We have long attached great importance to sustainable products and plastic reduction. That's why the new FSC® Skat comes completely without plastic in the game. The cards bear the genuine ASS Altenburger card design and are wrapped in paper instead of plastic. The packaging and the cards are made of FSC®-certified material and are particularly kind to the environment. The new Skat is accompanied by a redesign of the brand, giving the new ASS Altenburger brand image a modern and timeless look.
