Product Description

The call has been answered. The four Horsemen of the Apocalypse, Death, War, Fury and Strife, are travelling to the Forbidden Land at the behest of the Fiery Council. The 61 detailed miniatures cut a particularly fine figure. To prevent the apocalypse from starting in your game box, we have thought about how we can protect your miniatures and keep your game box tidy at the same time. The result is this Feldherr Organiser with foam set recommended by the Fiery Council. This allows you to transport your miniatures undamaged and your game material clearly organised to the next game night. - The set offers space for all miniatures and the corresponding game material from the "Darksiders: The Forbidden Lands" base game. - It fits into the original base game box of "Darksiders: The Forbidden Lands". - The painted miniatures are reliably protected by two foam inserts. - Two token holders and a plastic tray help you sort the small game material. - Five card holders are included in the set for sorting your playing cards. - All cards also fit with protective sleeves. All cards fit into the card compartments even with protective sleeves (max. dimensions: 91 mm x 67 mm). - The rulebook, campaign book, player boards and the large hex tiles are stored on the foam lid. - The lid of the board game box protrudes approx. 8 cm. - The Flex Cross Band size XL, which is also included in the set, provides more stability during storage and transport. - transport and tilt-proof - vertical storage possible - "Ready to Use" - no assembly required There are things that even a horseman of the apocalypse fears. Going into battle without a weapon, for example. Or without arms. To ensure that the riders can maintain their balance and all 61 figures arrive on the gaming table undamaged, we have included two matching foam inserts in the set. Whether apocalyptic rider or boss monster, each miniature has a customised compartment. Thanks to the customised cut, the miniatures fit snugly. Even if things get rough during transport, they won't slip and will stay in place. Thanks to the soft, high-quality foam, you don't have to worry about scratches and chipped paint on your painted figures or broken details on your miniatures. Once your miniatures are stored, let's take a look at your game material. Five card holders help you sort the 400+ cards. Each of the card holders has 2 compartments in which you can neatly store the stacks of cards. The cards also fit into the card compartments with protective sleeves. Three additional plastic inserts have been added to the set for your small game material. Two token holders, each with 3 compartments, provide storage space for the game's tokens. While single and double hexiles are stored in their own tray. Finally, cover everything with the foam lid. This protects your figures from all sides and prevents anything from falling out of the compartments during transport. You can store the rulebook, campaign book, player boards and the large hex tiles on the foam lid. The lid of the board game box protrudes significantly. To ensure a stable, transportable fit of the lid despite the protrusion, the set also includes a Feldherr Flex Cross Band blue (size XL). The set consists of: - 1 foam insert with 20 compartments for hero miniatures such as Death, War, Fury and Strife, as well as large miniatures such as Jailer Boss and bulky miniatures. - 1 foam insert with 43 compartments for small and normal-sized miniatures + game material such as dice and tokens. - 2 plastic token holders, each with a compartment for the miniatures. 2 plastic token holders with 3 compartments each for tokens such as Armor Point, Soak Point, HP, Boss Phase, "X", Necromancy (Death), Relic, Shadow Clone (Strife), Death Glyph (Strife), Teleportation Point (Strife), Vulnerable Token. - 1 plastic token holder with a compartment for single and double Hexiles. - 5 plastic card holders, each with 2 compartments for playing cards such as Rider Cards (Death, War, Fury, Strife), Event Cards, Jailer Boss Cards, Jailer Phase Cards and Vulgrim Upgrade Cards. - high-quality, fine-pored foam-chlorine-free and acid-free. - Made in Germany As with all 3D-printed models, minor imperfections may occur. The product images are only examples of what the finished product may look like. All products are provided unpainted. - thermoplastic - made from renewable raw materials - no assembly required - ready to play - 3D printed in Germany
