### Product Description

Goula Logic City - Educational preschool game, the aim of which is to use the wooden pieces to correctly build the models on the cards according to their spatial placement. The box serves as the basis of the game and you have to place the pieces as indicated on the card. These cards have a progressive level of difficulty, three in total, and vary as new positions and colours are added. Self-correcting game as each challenge has the solution on the back for little ones to check on their own. It can also be played individually by solving each of the challenges, or with multiple players where children compete against each other. Safety warning Not suitable for children under 3 years of age. The box contains 14 coloured wooden pieces, 45 challenge cards with 3 levels of difficulty, base (reversible) and decorated background. Contents- 14 pieces of wood, base (reversible), decorated background and 45 progressive challenge cards.
