from **21,11 EUR**

Item no.: 379410
shipping weight: 0.30 kg
Manufacturer: Feldherr

Product Description

Natural clearings, crystal-clear rivers and a dense forest line your national park. But somehow the colonisation of wild animals isn't working out. Have you mixed up the game material? Misplaced the cloth bag with the animals? Or have you simply lost track of the game table? We have the perfect organiser for your board game box and game table to ensure that your habitats are soon overflowing with life. The trays not only keep your board game box organised, they also support you directly on the gaming table and help you keep track of your creation. You can easily set up the national park and hexes and round markers will soon form a perfect harmony. - The organiser fits into the original base game box of Cascadia- It offers space for all cards and the game material of the base game.- The trays not only keep the board game box tidy, but can also be integrated directly into the game.- Each player receives a tray for the wilderness tiles and the cones. Players always have access to their personal game material.- Practical table stands for the game cards improve the overview on the game table. For a better hold, connect the table stands together.- The revealed wilderness tiles and drawn animals are inserted into the plastic game aid. This makes it easy to pass them from player to player.- Store the cloth bag with the animals on the starting player tray and the game aid. Place the rulebook on the organiser.- The cards also fit into the card holder and the table stand with protective cover (max. outer dimensions: 72 x 125 mm).- Transport and tilt-proof - vertical storage possible- Ready to use - no assembly required While you wrestle with the wild, we keep your board game box tidy and support you on the gaming table. Various plastic inserts ensure that your game material is clearly and logically organised. So you know where the individual components are located. This saves you a lot of pre-sorting before each game, which takes a lot of time with over 250 individual components. To set up the game quickly, take the individually removable inserts out of the box and spread them out on the table. Each player gets their own trays to keep track of their progress. This makes the game more fun as you can concentrate on the park and not on searching for the right components. After the game, you put the game material back in the trays and put them in the box. Now you can start a new round straight away. The set consists of:- 1 plastic card holder with six compartments for playing cards + table stand- 5 plastic table stands for playing cards- 4 plastic token holders for 20 wilderness tokens each- 1 plastic token holder with a compartment for remaining wilderness tokens- 4 plastic token holders, each with a compartment for cones- 1 plastic starting player tray with three compartments for starting landscapes + scoring pad- 1 plastic game organiser with 8 compartments for placing the animals and wilderness tiles during the game. The organiser has the following dimensions: 229 mm long x 229 mm wide x 66 mm high- thermoplastic- made from renewable raw materials- no assembly required - ready to play- 3D printed in Germany As with all 3D printed models, minor imperfections may occur. The product images are only examples of what the finished product may look like. All products are provided unpainted.
