59231 - Bubble

from **42,67 EUR**

Item no.: 378314
 shipping weight: 1.00 kg
 Manufacturer: Clementoni

Product Description

Bubble is the new intelligent robot that introduces children to drawing and coding in an intuitive and fun way - simply by drawing. To draw with Bubble, simply press the dots on the keyboard: The sequence of the selected keys results in the drawing that the robot can put on paper. The cards included in the game help the child with the first programming steps, but countless combinations can be created and drawn! In addition to a fun tangram-style activity, the free app also includes an area to invent new drawings for Bubble. Fun is also guaranteed thanks to a second game mode in which Bubble moves in a funny way and reacts to loud noises and puffs of air - for an intuitive and entertaining game! Conceived, designed and developed in Italy.
