Product Description

The prophecies that were supposed to serve as a warning were branded as retrograde, unscientific superstition. And when the harbingers of evil finally opened the gates of hell, no one was prepared. In "Planet Apocalypse", the end times have begun and the few survivors are trying to close the gates of hell with all their might. The basic game box contains a lot of game materials and fantastically modelled miniatures. To ensure that your figures reach the gate to hell undamaged and you don't have to rummage through your game material, we have the ideal mix of organiser and foam set for you. It allows you to organise your game material neatly and keep your figures well protected. The set can be transported compactly packed in the basic game box and you can tear down the gates of hell. - The organiser incl. foam set offers space for all the game material and all the miniatures from the "Planet Apocalypse" basic game. - The organiser fits into the original base game box of "Planet Apocalypse". - 4 individually removable token holders and an individually removable plastic card holder keep the game material tidy. - All cards fit into the card holder even with a protective cover. (Max. dimensions: small cards 68 mm x 46 mm + normal sized cards: 96 mm x 68 mm). - The rulebook, Hero Sheets, Control Panel, Gift Panel, Invasion Map, Doomgate Map, Hell Time Board, Demon Panel, Lord Card and the Fourth Circle Cards are stored separately on the foam lid. - The lid of the board game box is made of plastic. The lid of the board game box protrudes approx. 1 cm. - "Ready to Use" - no assembly required. Who cares about the end of the world when your box is a mess? So that you can close the gates to hell worry-free, we take care of the organisation in your basic box and the protection of your miniatures. You can store your miniatures safely in soft foam inserts and you can neatly organise your game material using the tokens and card holders. This saves you time when setting up the game and you can put the time you save into the game. The set consists of: 1 foam insert with 9 compartments for Baphomet, Catoblepas, Hellhound, Fiends, Cacademons (AGMFEZ085BO) 1 foam insert with 25 compartments for hero models, Larvae, Grylluses (AGFM035BO) - To protect the 31 excellently designed miniatures, we have packed two foam mats in the game box. Whether disturbing Catoblepas or puny hero, each miniature has its own custom-fit compartment. Thanks to the precise cut, the miniatures sit firmly in place. Even when being transported through the circles of hell, they do not slip, remain in place or bump into each other. - The soft, fine-pored foam reliably protects your figures from damage. You don't need to worry about scratches and chipped paint on your painted figures or broken details on your miniatures. 1 card holder made of robust plastic with six compartments for Gift cards, Hint cards, Trooper cards, Legion cards. - All cards fit in the card holder even with a protective cover. (Max. dimensions: small cards 68 mm x 46 mm + normal sized cards: 96 mm x 68 mm). 4 plastic token holders with 6 compartments for game material such as dice, tokens and markers (Despair Dice, Ability Marker, Invasion Token, Health Counter) - The four token holders have a total of 24 generously sized compartments. - Thanks to the generic design, the game material can be organised according to personal preferences. - The token holders can be stacked on top of each other. Five small foam mats compensate for height differences within the box. Place them on top of or under the plastic trays. Finally, cover everything with the foam lid supplied. This ensures that none of your pieces bump into the lid of the board game box during transport. Finally, place the rulebook on the foam lid. This gives all the contents of the box a place, the game contents are clearly organised and the miniatures are safely stowed away. The rulebook, Hero Sheets, Control Panel, Gift Panel, Invasion Map, Doomgate Map, Hell Time Board, Demon Panel, Lord Card and the Fourth Circle Cards are stored separately on the foam lid. - high-quality, fine-pored foam- chlorine-free and acid-free- Made in Germany As with all 3D-printed models, minor imperfections may occur. The product images are only examples of what the finished product may look like. Colours may vary.
