The special archive of the Guardian Association I contains, among other things, the story of the legendary hunter squad (consisting of five daring and inspiring hunters), several 4-page mini-adventures, a series of short stories from the HeXXen universe (including a contribution from the successful fantasy Author Bernd Perplies), an art book with the illustrations of the first HeXXen products, annotated by Art Director Maik Schmidt, the mini-adventure Obsessed and an addition to the Kingdom of Thorns campaign intended for gamers. Like the book of rules, the collection of gifts will be wrapped in an artificial leather cover.
