Product Description

Werewolf: The Apocalypse Book of Wyrms (W20), hardback (DE), 196 pages

They plan from the Umbrian kingdom of Malfeas to the conference rooms of Pentex and its subsidiaries Wyrms minions killing Gaia. Distorted fomori, monstrous plagues, and wrym-tainted shapeshifters strike the world with caustic claws. The Maeljin Incarna steal those who are easily forgotten, ignored, or lost to populate their perverse realms. Factories choke up smoke that darkens the sky, and toxic waste seeps into rivers and seas. The heads of the hydra see what they've done to the world and they know it's good. Long ago, the wrym was a servant of balance. Now that he is being strangled by the weaver's nets, he lashes out in madness and pain. If he can poison the world, sow canker sores through all that is, then maybe he will finally be free.

The Book of Wyrms contains:

- New information and background information about the corrupting wrym
- Information about the wrym's minions, from Fomori to Skull Pigs to Chulorvia.
- A closer look at the dancers of the Black Spiral, the grotesque mockery of the Garou
