Product Description

Werewolf: The Apocalypse Anniversary Edition Basic Rulebook W20 (DE)

We are the last chance this world has. We are their shield and spear, keeper of their secrets, keeper of their laws, and the righteous wrath that repulses the wrym's servants; we change our skins to walk among men as among beasts. We are werewolves! Werewolf - The apocalypse is back! A good 20 years after the werewolves first appeared in Germany, the Garou are returning - and are even more angry than ever. In the new anniversary edition of Werewolf - The Apocalypse, players slip into the roles of shapeshifters who see themselves as warriors against the horrors of the modern world. They fight against unscrupulous corporations as well as against the horrors from the spirit world. And in doing so, they repeatedly come into conflict with their hated opponents, the vampires. The anniversary version of Werewolf - The Apocalypse has been lovingly and carefully reworked without running counter to the spirit and atmosphere of the original. Describes all 13 of the original tribes, subgroups, and the lost tribes with revised skills and gifts. The background has been written further for the present time, so that you can play werewolf against the background of current political and social issues without any problems. And last but not least, numerous new, full-color artworks have been made for this special new edition. This means that the basic rules alone have over 550 pages.

Warning! Not suitable for children under 36 months.
