Product Description

HeXXen 1733: Mare Monstrum, 128 pages (DE extension)

Mare Nostrum - this is what the Romans called parts of the Mediterranean. In "Mare Monstrum" we focus on the eastern part of the Mediterranean, especially the Aegean, but also Rhodes and Cyprus. This volume deals with the knowledge necessary for hunters and gamblers about this adventurous area, where the Ottoman Empire fights with Venice for supremacy, where traces of ancient myths can be found in the crumbling ruins, where sea albums and sea monsters rule the open sea and where one is still can find forgotten treasures of Knights Templar. On 128 pages not only real places are described, but also fantastic areas like Troy and Atlantis. Monsters like the maenads, shaitans or minotaurs are explained from the point of view of a resident of the game world - enough to arm yourself for the fight against these creatures! In addition to the often rumored information, the player will also find solid rules for shipping and the ships typical of the Mediterranean, plus the new role of seafarer and four exciting professions: assassin, pirate, treasure hunter and the Johanneei brother.
