Product Description

Torg Eternity: Delphi Missions - Cyberpontifikate, Adventure Collection (EN Edition)

The Delphi Council needs your help!

Delphi Missions Cyberpontifikat is an adventure collection suitable for expanding any Torg Eternity campaign. Each of the eleven adventures presented here is perfect for one play session. All of these adventures can be played individually or can complement an ongoing campaign. It is dangerous to face Malraux and the Cyberpontifikate, but at the same time these adventures also offer many intriguing opportunities for daring Storm Knights.

In this book, you'll find adventures for Alpha and Beta level Storm Knights written by a host of veteran Torg authors who return to their roots with this product. These include Bill Slavicsek, Brian Reeves and John Terra. Well-known role-playing game designers such as Steve Kenson, John Wick, Rachel Savicki, Rhiannon Louve, Tracy Sizemore and Henry Lopez have joined this new edition to present their own version of cybertheocratic adventures in the cyberpontifikate.

In this book you will find:

- eleven adventures set in a wide variety of areas of the Cyberpontifikate
- adventures that can be played independently or used as part of a campaign to extend an act that has ended too quickly
- new enemies and new magical treasures to conquer

Attention. This sourcebook requires the Torg Eternity Basic Rulebook and Drama Deck to play.

Caution. Not suitable for children under 3 years. Choking hazard due to small parts that may be swallowed.
