Product Description

Torg Eternity - Cyberpontificate, Game Master Set (DE Edition)

Perfect tools for your adventures in the Cyberpontificate! This set contains a number of tools designed to enhance your Cyberpontificate campaign! The large poster map shows you the invasion areas in Western Europe and South America so you can plan your next steps.

16 archetypes are ready for adventure and ready to play.

Inserts for the universal umbrella provide you with all the necessary information about the cyberpontificate at a glance, while a beautiful motif on the outside sets the right mood.

And with Dance on the Needlepoint, the set also comes with a complete adventure in which the Storm Knights not only decide the fate of the Fixed Point in Paris, but may even drive a wedge between the Church and some of its most powerful allies.

- Type: Game Master Set
- Language: German
