Product Description

Torg Eternity - Cyberpontificate, Sourcebook (EN Edition)

The Cyberpontificate is a realm of technological oppression ruled by High Lord Jean Malraux, the first and only true Cyberpope. According to the teachings of the Church, the flesh is sinful and the metal is pure.

The Cyberpontificate appeared in Avignon in the role of a saviour and fought valiantly against the demons and invaders from other realms. It has since spread to all of France and Spain, and even as far away as Brazil.

Within the cyberpontificate, people humbly pray on their knees. They fear witches and demons that can lurk anywhere. If only they pray hard enough and abide by the laws of the benevolent church, they will be granted the chance to upgrade their imperfect flesh with shiny, mechanical cyberware.

The cyberpontificate does not secure its conquests by brute force. It waits to be welcomed by the people who desire the upgrades, or crave a new, fulfilling and carefree life in the all-encompassing GodNet!

In this book you will find:

- New perks, wonders, spells and cyberware for all players
- New threats and enemies and a detailed treatise on the methods and resources of the Church!
- A detailed description of the different regions of the Cyberpontificates, including Brazil and the GodNet
- Adventure entrances and events from the first year of the Possibility Wars
