Unholy Data is a gigantic adventure that will provide you with material for several months. The Delphi Council has a unique opportunity to infiltrate a team into the Cyberpontificate, disguised as special investigators for the Inquisition. But what will happen when, using their new cover identity for the first time, they stumble upon a dark conspiracy that will very soon run enormous circles?

Someone in the church has sinister plans. Follow the trail through dark monasteries, tough urban sprawls and finally into the GodNet itself to uncover a secret more dangerous than the Church itself!
