Product Description

Torg Eternity - Aysle, Game Master Set (DE Edition)

This set contains a number of tools designed to enhance your campaign in Aysle! The large poster map shows you the invasion areas in Britain and Scandinavia so you can plan your next steps. 16 archetypes are ready for adventure and ready to play.

Inserts for the universal screen provide you with all the necessary information about the fantastic Cosm Aysle at a glance, while a beautiful motif on the outside sets the right mood. Finally, the set includes a complete adventure in which the Storm Knights investigate a GodNet failure in the Mixed Zone of Dunkirk and a mysterious, celestial figure calls upon the Cyber Pope to judge the "den of iniquity" Folkestone - the village of demons!

Caution. Not suitable for children under 3 years. Choking hazard due to small parts that may be swallowed.

- Type: Game Master Set
