ORG150 - Foam set + organiser for Oak and Iron - basic game box

from **17,40 EUR**

Item no.: 380041
shipping weight: 0.20 kg
Manufacturer: Feldherr

Product Description

The 17th and 18th centuries were eventful times. It was the era of absolutism and enlightenment, the age of imperialism and, last but not least, the heyday of piracy and epic naval battles. Oak & Iron brings this time back to your table. This Feldherr foam organiser insert takes care of the well-being of your fleet and the organisation of the game accessories so that you can devote yourself entirely to tactical planning. - The set fits exactly into the original board game box of the "Oak & Iron" base game. - It offers space for all 6 miniatures and the complete game accessories of the base game. - The foam insert ensures the protection of the miniatures. The bases are stored separately. - Additional compartments on the insert and the organiser made of robust plastic help you to sort the game cards, counters, tokens and other small game accessories. - The cards also fit with protective sleeves (max. outer dimensions 66 x 91 mm). - Larger game components - game instructions, Sea Mat, large Terrain Tiles, Ship Cards and Range Ruler - are stored on the foam lid. - Transport and tip-proof - Vertical storage possible - "Ready to Use" - No assembly required. To keep the ships seaworthy, all six miniatures (without bases) have their own customised compartment. There is a separate compartment for storing the bases. The customised cut helps with sorting and also ensures that nothing slides around during transport. The delicate details of the miniatures are thus reliably protected from damage. Once you have painted your models, you can be sure that the colours are still intact even after transport. Once the sailors have been taken care of, we take care of the game material. You can organise the dice, movement tools, the wind arrow, wake and reload tokens and the rocks & shoals terrain tiles in the remaining seven compartments on the insert. The three card holders and three token holders made of robust plastic are the perfect addition for sorting the playing cards and the counters & tokens. The trays can be removed from the box and placed directly on the game table. There is still enough space on the foam lid to store the larger game components. This is where you place the game instructions, sea mat, large terrain tiles, ship cards and the range ruler. The set consists of: - 1 foam inlay for ship miniatures and game material (HPMFHP035BO) - 3 plastic card holders for playing cards - 1 plastic tray for small playing cards and tokens - 2 plastic trays for counters and tokens - 1 foam lid - high-quality, fine-pored foam - chlorine-free and acid-free - Made in Germany As with all 3D-printed models, minor imperfections may occur. The product images are only examples of what the finished product may look like. Colours may vary. All products are supplied unpainted. - thermoplastic - made from renewable raw materials - no assembly required - ready to play - 3D printed in Germany
