from **26,29 EUR**

Item no.: 380031  
shipping weight: 0.30 kg  
Manufacturer: Feldherr

### Product Description

Feldherr foam set and organiser for neat and safe storage of the game material for the figures of the basic game. We offer you a suitable combination of foam insert and organiser for the board game conversion of the well-known computer game. The high-quality foam insert protects your figures from damage and the plastic organiser keeps the base game's game material perfectly organised. The set fits into the original base game box of "Wolfenstein: The Board Game". It offers space for all game material and all plastic miniatures of the base game. 3 card holders for standard cards and 1 card holder for small format cards are included for sorting the cards. Both standard cards and small format cards are included. Both standard cards and small-format cards fit into their respective card holders with protective sleeves (max. outer dimensions of standard cards: 68 x 95 mm, small-format cards: 46 x 68 mm). Four trays for the small-format game material are included in the set. The individual trays of the organiser are stored on the foam lid. Hero Cards, Corridor Tiles and Map Tiles are stored on the foam lid between the large card holders and next to the dice holder. Place the hazard and round tracker on top. Insert 2 of the 4 dashboards into each other and then place them next to each other on the foam lid. Place the rulebooks at the top. The lid of the board game box protrudes approx. 2 cm. Transport and tilt-proof - vertical storage possible - Ready to use - no assembly required. As you advance deeper into enemy territory, we have taken command of your board game box. 4 card holders, 3 token holders and a plastic dice holder ensure that your game material remains perfectly organised. Tiresome pre-sorting is prevented during game set-up and tidying up is quick and easy. For a quick start to the game, take the individual trays out of the board game box and spread them out on the game table. Each figure has a suitable compartment in the foam insert. Thanks to the customised cut, the models sit securely in place and the figures remain in place even if things get rough during transport. The soft, fine-pored foam protects your miniatures from breaking off details and if you have painted your models, it prevents scratches and chipping paint. A foam lid is included in the set to ensure that your figures are also optimally protected from above. The set consists of: - 1 Feldherr foam insert with 68 compartments for plastic miniatures such as hero, enemy and boss models, barricades and gates (FBMFIG070BO) - 3 plastic card holders, each with one compartment for standard cards such as Enemy Cards, Event Cards, Weapon Cards - 1 plastic card holder with two compartments for small-format cards such as Equip Cards, Chest Cards - 1 plastic dice holder with one compartment for custom attack dice - 1 plastic token holder with twelve compartments for small game material - 1 plastic token holder with four compartments for small game material such as Ammo Tokens (blue, red, green) and Shared Life Tokens - 1 plastic token holder with one compartment for small game material - 1 foam cover. The foam insert has the following dimensions: 480 mm x 250 mm x 70 mm total height (60 mm usable height + 10 mm foam base). - High-quality, fine-pored foam - Chlorine-free and acid-free - Made in Germany. As with all 3D-printed models, minor imperfections may occur. The product images are only examples of what the finished product may look like. All products are provided unpainted. - thermoplastic - made from renewable raw materials - no assembly required - ready to play - 3D printed in Germany
