Product Description

Kingdom of Thorns campaign box - extension for: HeXXen 1733 (DE), 180 pages

A mysterious power has in the border area between the Electorate of Saxony, the Kingdom of Bohemia and the Kingdom Raven black claimed territory for himself and sealed off the area with an insurmountable wall of thorns. The hunters in the town of Aue in the Ore Mountains become aware of this threat when they help the mysterious healer Frieda to defeat a man who turns into a whipping thorn monster before their very eyes. If they are ready to accept Frieda's order, it will lead them across the Ore Mountains to the Thorn Wall, always pursued by the captors of the mysterious Rose Queen. But your quest does not end there, because now you have to ensure the friendship of an ancient being in order to find a way through the wall of thorns. And to enter the haunted kingdom of thorns. The journey goes through cursed forests and dark caves, through cities besieged by albums and real places.

This fairytale adventure contains - in addition to exciting and challenging battles - many opportunities for social activities, research and adventures along the way. If you want, you can enrich the campaign with optional side quests or expand it with the many inspiring suggestions that are described in the attached Erzgebirge regional volume.

In addition to the campaign and the regional volume, the game box also contains a historical map of the Ore Mountains and all of them Opponent tokens and special markers that are needed to visualize the battles.

For players who want to deal more with the Ore Mountains, want to try out a local character or a new profession tailored to mountain travel, we recommend the special volume on crowdfunding, in which the corresponding ideas and rules can be found.
