Product Description

HeXXenmeisterschirm / Game leader screen - extension for: HeXXen 1733 (DE)

This game leader screen shines above all with its high-quality presentation on sturdy cardboard. As a bonus, the mini-adventure Demon Spawn is also included, in which the hunters have to face a demonic danger that threatens to spread in the heart of the city of Waldenau, as well as all the NPC tiles required for the adventure on a punched sheet. A simple, smaller version of the HeXXenmeister umbrella is also included in the HeXXenmeister tool box, but this more stable variant is always spot on.
Warning! Not suitable for children under 36 months.
