Product Description

Starfinder - critical blunders, card set (DE)

Do you want to give attack throws a feeling of danger or impending disaster in your Starfinder games if they go terribly wrong ? Would you like failed spells to wrap their caster in ectoplasmic slime? Or do you find it hilarious to throw the pen instead of the grenade?

If you roll a 1 during an attack, simply draw a card and apply one of four different effects depending on the type of attack. These cards are designed for the Starfinder role-playing game and can be used by players and game masters alike. Failing miserably has never been so fun!

Warning!Not suitable for children under 36 months.
