Product Description

DSA5 - 20 Fate Points - The Shores of the God Whale (DE)

It has not yet been decided who will rule in the last age. It is up to your heroes to influence fate in their favor!

Fate points, also lovingly abbreviated to chips, are a central part of the 5th rule edition of The Black Eye. With chips, your hero can survive the most dangerous situations in which many others would have met certain death, and it is not uncommon for them to tip the scales when it comes to performing heroic deeds.

With this set You can take into account the new rules at the gaming table and always have a close eye on the current score of your hero.

This set contains 20 fate points with symbols for the regional game aid Die Gestade des Gottwals - Thorwal and das Gjalskerland - for use with the 5th edition of Das Schwarze Auge.

Warning!Not suitable for children under 36 months. Contains small parts that could be swallowed.
