Item no.: 343419
shipping weight: 0.10 kg
Manufacturer: Ulisses Spiele

Product Description

Deluxe marker set Quintessenz - extension for: HeXXen 1733 (DE extension)

With Quintessenz, a new resource comes into play in the primer of the hunter's trade, which rounds off the existing resources. Quintessenz is primarily intended for hunters who are skilled in magic, but can also be used by other hunters when they need to. Quintessenz has already been shown in advance on the extremely popular hunter's mat, so that you already have the perfect storage location for it. As usual, the deluxe markers come in the form of poker chip tokens, which enable them to be handled quickly at the gaming table. The marker set contains 10 game pieces.

Attention! Not suitable for children under 36 months.
