Product Description

This card pack contains 105 full-colour cards with everything you need to prepare your Justifier perfectly for the dangerous missions ahead. This deck contains all the special characteristics and equipment items contained in the basic book once each, with each item also illustrated with a matching picture. With these cards you have all the important information at your fingertips, no more flicking through the book. At the same time, the game is greatly enhanced visually and the fun of the game is significantly increased. As a bonus, this card pack also contains four additional cards with previously unpublished items and special features!
