Product Description

Aventuria is a continent full of adventures and dangers that brave adventurers can test themselves against. Through the experiences they gain, they improve their skills and eventually become the legendary heroes the bards sing about in their songs. Do you have what it takes to become an Aventurian legend? Path of Legends is a supplement for Aventuria - The Adventure Card Game. In this box we present the new Legend Mode, in which your heroes travel to the nearest settlement after each adventure and can invest their hard-earned adventure points in new, improved cards in an exciting interlude. This makes each hero and heroine not only stronger and more powerful, but also a true Aventurian legend with a very individual hero deck and many special abilities. New difficulty rules and challenge cards ensure that the adventures you play remain exciting and challenging even for the improved heroes. Simple, easy-to-understand rules and a cover sheet for a quick start to the game ensure that the legends mode is also interesting for newcomers and casual players. Contents: - 1 cover sheet for a quick start to the game - 12-page rulebook - 16 location sheets with exciting encounters - 6 legend boxes to store your heroes - 605 cards (experience treasures, special abilities, disadvantage cards, challenge cards, etc.)
