Product Description

GOULA Happy Chickens The Happy Chicken game has two different game modes. The first game mode is as follows: At the beginning of the sequence, the tile is removed, depending on the colour shown (red, green, blue or yellow) the player will pull a stick out of the corresponding hole in the colour and leave it by the side. Then the turn goes: When the dark chick falls, a chilli spins and the corresponding action is performed. If one or more chicks fall when the stick is removed, the player will be the player. When the chicken spins, the chicks the player has to the chicken coop are returned. The game ends when there are no sticks in the chicken coop and the player with the most chicks wins. The second game mode requires only one chick to be placed in the chicken coop. The game pieces are rotated in turn and the player must pull out the stick in the colour indicated on the chip. If the rotating chip is in the hen's colour, the turn ends. The game ends when the chick falls from the henhouse and the player who has the most sticks at this point wins. 2-4 Players 10 min 3+ years Contents: It contains 5 wooden chicks, 12 sticks, 1 chicken coop and 16 chips.
