### Product Description

Preschool game with two types of game modes: co-operative and competitive. From 1 to 4 players. Co-operative play promotes different values for children and teaches them to respect the rules of the game. All players co-operate to get the three little pigs in the house to safety before the wolf arrives. Everyone can move all the characters; in turn, they roll the dice and move the piglet that is in front of the colour indicated by the dice (blue / yellow / red); if the dice is black, the wolf advances one space. If the die falls on the colour white, the player can select a character and advance one space. If the die falls on the flower, the player can rotate a round piece of the board: If he finds a pig, all the pigs advance one step, but if he finds the wolf, the wolf advances one step. Competitive game for three players. Each player chooses a piglet and moves it to the next space of the colour indicated by the dice. No one plays with the wolf, although its function is the same as that of the cooperative version. The first player to arrive at the house wins. 1-4 players, 15 min, 3+ years.
