Product Description

The armies of Vesh Darkhand are on the march and they are heading straight for the Isle of Cats. Save as many cats as possible before Lord Vesh reaches them. We have designed a brand new plastic Feldherr organiser for your rescue mission. Suitable for your basic game box, you can use it to neatly organise the game material and all the cards from the basic game, the "The Latecomers" expansion and the Kickstarter Deluxe Set. Gone are the days when you had to fish in the mud and salvage your tokens from the chaos of your board game box. Now everything is kept tidy and easily accessible in the organiser. - The organiser fits into the "The Island of Cats" basic game box. - The set offers space for all game contents of the "The Island of Cats" basic game, the "The Stragglers" expansion and the first Kickstarter Deluxe Set. - The organiser can also be used without the expansions, just for the basic game. - The trays can be removed individually and placed on the table for the game. - The wooden figures can be sorted by colour in the trays. This allows each player to keep an eye on their own pieces. - All cards also fit into the card holders with protective sleeves (max. outer dimensions: 96 x 69 mm). - The trays are stored at the edge of the box. Large-format game material - such as player boats, scoring pad, pencil and island map - is stored in the free space inside the box. The explorer bag with the cat tokens and rare treasures as well as the original cardboard fish tokens are placed on top. If you use the organiser without the Kickstarter Deluxe Set, you can store the original fish tokens in the corresponding token holders. - Transport and tilt-proof - Vertical storage possible - "Ready to use" - No assembly required. We have taken care of the organisation in your basic game box so that you don't buy a pig in a poke and get overwhelmed by the chaos in your box. So you can concentrate on the essentials: Rescuing cats and recovering treasures. The nine plastic token holders and four card holders make your rescue mission easier. They allow you to keep an eye on your game material and thanks to the clear structure, putting them in and taking them out is child's play. This saves you a lot of time and allows you to concentrate on your feline friends. The inserts also offer you plenty of help on the playing field. Spread them out on the table and you'll have everything in view and all the important game components within easy reach. The set consists of: - 2 plastic token holders, each with 3 compartments for wooden figures such as cat figures, assorted colours + Oshax figures + Vesh's boat - 2 plastic token holders, each with a compartment for tokens such as Oshax tokens + basket tokens - 1 plastic token holder with 4 compartments for tokens such as common treasures - 4 plastic token holders, each with a compartment for small game material such as wooden fish from the Kickstarter Deluxe Set (alternatively the original fish tokens from the base game and the expansion) - 1 plastic card holder with 2 compartments for special cards such as family cards, Solo Basket Cards, Solo Lesson Cards, Solo Extended Lesson Cards, Solo Colour Cards, Reference Cards - 3 plastic card holders, each with a compartment for Discovery Cards. The inserts are stored on the edge of the box. Large-format game components - such as player boats, scoring pad, pencil and island map - are stored in the free space inside the box. The explorer bag with the cat tokens and the rare treasures, as well as the original cardboard fish tokens are placed on top. If you use the organiser without the Kickstarter Deluxe Set, then sort the original cardboard fish tokens into the corresponding token holders. - thermoplastic- made from renewable raw materials- no assembly required - ready to play- 3D printed in Germany.
