Product Description

GOULA Baby Shapes Baby Shapes by Goula is an educational board game for children aged 2 and over. With this game, they learn to recognise different shapes and colours thanks to the activities suggested in the game. Baby Shapes consists of 6 sheets printed on the front and back and 14 wooden pegs in different colours and geometric shapes. The sheets offer a total of 12 activities and are progressively structured so that children can learn at their own pace. How to play: The game box serves as a base and you have to put one of the sheets together to start the game. To carry out the activity suggested by each sheet, you have to find the wooden pegs and place them correctly. In this way, children from the age of 2 learn and work with square, round and triangular shapes. The Jumbo Group is very environmentally conscious. By paying attention to materials, production and people, we try to take small steps to make the world a better place. At Goula, we attach great importance to the quality of our games, which is why we care for and treat the contents with great care. This quality should also be reflected in the materials we use, which is why we manufacture the majority of our games locally, in Talleres Galindo in Barcelona. All our products are designed and manufactured with the highest quality, using plantation wood and sustainable use, paints and varnishes that are free of toxicity. 2+ years Contents: 6 sheets printed with front and back and 14 wooden pegs in different colours and geometric shapes.
