from **67,11 EUR**

Item no.: 379465
shipping weight: 0.40 kg
Manufacturer: Feldherr

Product Description

Long live the king! With the King's Pledge, you have chosen the ultimate adventure. In addition to the basic game, it contains all unlocked stretch goals as well as 3 expansions. Over 40 miniatures, more than 1700 cards and countless game materials need to be stored safely. The oaths of others may be broken, but you can always count on our support. With the Feldherr Organiser Bundle, you have the right inserts for your board game boxes. This way, you can keep everything organised and your miniatures optimally protected. The bundle offers space for all miniatures, playing cards and the complete accessories from the "Tainted Grail: The Fall of Avalon" King's Pledge of the Kickstarter campaign by Awaken Realms. Plus an additional compartment for the expansion character figure Niamh. Both the base game, the expansions and the Stretch Goal Box come with matching inserts for the respective board game boxes. Echoes of the Past" is housed in the "Red Death" board game box. Four foam inserts ensure that the miniatures and game material are stored safely. The insert for "Monsters of Avalon" is customised for all 20 miniatures from the Miniatures Pack. A total of 8 plastic card holders help you to sort the playing cards. All cards also fit with sleeves. A plastic token holder ensures that no markers and dice from the basic game get lost. The character boards and paper materials (introduction letters, adventure maps, memory sheets, book of discoveries, quick start rules and game instructions) are each stored separately in the board game boxes. To ensure that the more than 40 figures are well protected, the bundle contains four individual foam inserts that fit perfectly into the respective board game boxes. Each figure, whether fully loaded Donkey or Beor, has its own compartment. The miniatures from the Monsters of Avalon box even have compartments cut to fit the miniatures exactly. Thanks to the precisely fitting compartments, the miniatures sit securely and cannot slide around or bump into each other during transport. Packed in soft foam, the figures are optimally protected from damage. The fine details of the monsters remain just as undamaged as the weapons of your heroes. If you paint your figures, you can also be sure that the colours will be spared scratches and abrasion. Now that we've taken care of the miniatures, let's turn our attention to the game material. Various plastic card holders are included for the different cards. This makes it easy to organise the cards by size. A plastic token holder is included for the markers and dice from the basic game. This ensures that no tokens are lost. Distribute the rest of the game material, such as discs and health indicators, across the remaining compartments. Once everything is securely packed, cover the inserts with the foam lids provided. This will prevent the contents from hitting the lid of the box or falling out of their compartments. Place the character boards and paper materials (introduction letters, adventure maps, memory sheets, book of discoveries, quick start rules and game instructions) on the foam lids of the board game boxes. As with all 3D-printed models, there may be minor imperfections. The product images are only examples of what the finished product may look like. Colours may vary. All products are supplied unpainted.
