ORG091 - Organiser for Anno 1800 - Basic game box

from **15,13 EUR**

Item no.: 379426
shipping weight: 0.20 kg
Manufacturer: Feldherr

Product Description

Various versions of Anno have been delighting computer gamers since 1998. It's high time that the phenomenon continued its triumphal march as a board game variant. But the new beginning is proving more difficult than expected. Trade routes need to be opened up, industrialisation is on its way and the mob and queen need to be kept happy. To make sure that every cogwheel meshes perfectly and you don't lose your head over lost tokens, there's the Feldherr Organiser. It keeps your Anno 1800 base game box tidy and helps you set up the game. - The organiser fits into the original board game box of the "Anno 1800" base game. - It offers space for all the game material of the "Anno 1800" base game, as well as for the mini-expansion "Power of Gold". - Some trays not only serve as a storage solution, but can also be integrated directly on the playing field as a game set-up aid. - All cards also fit with protective covers. All cards also fit with protective sleeves (max. outer dimensions 92 mm x 62 mm). - You can store the rulebook, game board, home islands and game aids separately in the box. - Transport and tilt-proof - vertical storage possible So that you can concentrate fully on building your colony, we take care of the organisation in your basic game box. The five token and five card holders ensure that your game material is always clearly organised in the box. This saves you time when setting up the game and means you always have the essential game components to hand. To start the game quickly, simply place the individually removable trays on the table. Some of the trays can be integrated directly into the game. Place the trays with the population tiles next to the game board so that the coloured tiles match the colours on the game board. The four identical card holders can be sorted by card type and then placed on the game board in the same way as the pictures. The card holders can be joined together for greater stability. This means you have the population tokens and playing cards exactly where you need them. So nothing stands in the way of a fun game. The set consists of: - 4 card holders, horizontal, for expedition cards and population cards. - 1 card holder, upright, for order cards and Power of Gold mini-expansion. - 1 card holder with three compartments. - 1 card holder with three compartments for 6 quarter cards, 1 deck of 45 bonus cards and 1 deck of 25 point cards. - 2 token holders, flat, with a total of five compartments, pluggable, for population tokens (farmers, workers, craftsmen, engineers and investors). - 1 token holder with two compartments for Old World islands and New World islands. - 1 token holder with four compartments for marine tokens and gold tokens. - 2 token holders, high, with a total of five compartments, can be plugged together, for building tokens, starting player tokens and firework tokens. A foam base provides additional stability in the board game box and prevents the trays from sliding around. When all the trays have been placed in the board game box, cover them with the foam lids provided. Store the game aids and home islands between the two lids. The rulebook and the two game board parts are stored on the top foam lid. - High-quality, fine-pored foam- Chlorine-free and acid-free- Made in Germany As with all 3D-printed models, there may be minor imperfections. The product images are only examples of what the finished product may look like. Colours may vary. All products are supplied unpainted. - thermoplastic- no assembly required - ready to play- 3D printed in Germany
